## **DETAILED ACTION**

### ***Allowable Subject Matter***

The following is an examiner's statement of reasons for allowance: as per the telephone interview dated 25 January 2005, applicant has amended the claims to more specifically define the claimed invention, sufficient to overcome the rejection of record.

As relied upon in the Office Action dated 3 November 2004, the Liles patent teaches a frame allowing multiple participants to communicate expressive information with other participants in a meeting, and allows for icons indicating inputs and reactions of a participant and annotation banners containing comments or questions of a participant. However, the Liles patent and further prior art searched by the Examiner fail to explicitly teach sub-areas within the communication frame that are not distinct frames within a larger frame, and wherein displaying an icon in a first sub-area conveys a different expressive information from displaying the icon in a second sub-area. Due to these amendments, the Examiner has deemed the claims in condition for allowance.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
